## EXPERIENCE

### BRIGHAM AND WOMEN'S HOSPITAL; BOSTON, MA

FISH CENTER FOR WOMEN'S HEALTH MEDICAL ASSISTANT ..... NOVEMBER 2017- NOVEMBER 2018

- Supported primary care providers by performing electrocardiograms, vision/hearing/fall/cognitive screenings, ear irrigations, specimen collection, and finger sticks for blood glucose monitoring.
- Obtained vital signs and histories (chief complaint, social history, allergies, and medications), and appropriately documented in Epic EHR systems.
- Participated in team-based model for care and patient education, reinforced patient instruction as directed by provider, and promoted inclusive environment for diverse patient population.

CENTER FOR CLINICAL INVESTIGATION RESEARCH CO-OP ..... JUNE 2015 - NOVEMBER 2018

- Obtained vital signs, educated patients on experimental procedures and protocol, reinforced patient instruction per RN/MD, applied EKG/EEG/EMG/EOG electrodes for human research participants who have volunteered for inpatient circadian rhythm studies.
- Assisted nurses and physicians with IV insertions, glucose clamp procedures, and fat biopsies.

### NORTHEASTERN UNIVERSITY; BOSTON, MA

STUDENT PART-TIME LECTURER ..... JANUARY 2017-DECEMBER 2017

- Prepared and facilitated weekly pre-lab lecture and practical examinations for General Biology 2. Demonstrated and performed dissections on vertebrates and invertebrates to evaluate anatomy.
- Maintained instructional and evaluation continuity between two lab sections. Held office hours, enforced safety regulations, and maintained an orderly lab environment.

### MASSHEALTH PCA PROGRAM; NORFOLK, MA

PERSONAL CARE ATTENDANT ..... APRIL 2014-JANUARY 2017

- Assisted child with disabilities/global developmental delay with activities of daily living, which included augmentative communication, toileting, mobility, bathing, feeding, performing exercises, and administering medications.
